## PROBABLY THUNDER STORMS.

Fair and Cooler Weather Indicated for Thursday Afternoon.

Forecast till 8 p.m. Thursday: For the District of Columbia, eastern New York, eastern Pennsylvania, New Jersey, Delaware, Maryland and Virginia, local rains and probably thunder storms tonight and Thursday morning, followed Thursday afternoon by fair and cooler; brisk southerly winds and probably squalls.

Weather conditions and general forecast: Since Monday the weather changes over the United States have been marked and A storm has moved from Lake Superior

A storm has haved from take Superior over the Gulf of St. Lawrence, and a second storm has advanced from the British northwest territory to Lake Superior. This morning a third storm occupies the north Pacific coast. The movements of these disturbances have been attended by unsettled weather over the entire country, the only vertices which have not been visited by sections which have not been visited by rain being the southern plateau and southern Rocky mountain regions, the Florida peninsula and the west gulf coast.

The indications are that local rains and thunder storms will occur tonight in the Ohio valley, the middle Atlantic states and

the lower lake region, with dangerous squalls over the lower lakes. Thursday the

Increase of Immigration to United

States From Europe. Europe is sending emigrants at the rate of 500,000 a year. The year 1882 was the anner year, when 788,592 immigrants enered the United States. The figures dereased till 1886, when 334,203 immigrants came. In 1887 there were almost a million, and in 1888 more than half a million.

There was a falling off till 1898, when the figures reached only 229,299. The foregoing was for the whole United States. The fiscal year begins July 1 and ends June 30. The number of steerage passengers arriv ing at New York alone during the fiscal year of 1898 was 178,748, but from July 1, 1898, to May 23, 1899, the number is 207,036 immigrants. Probably 240,000 will have landed there during the year ending June 30, 1899. This will be 11,000 more than landed in the whole country last year. Several steamers have arrived this spring ginging 1,000 or more immigrants on one

## SPAIN'S NEW ENVOY

The Duke and Duchess of Arcos Will Arrive Tonight

RESUMPTION OF FRIENDLY RELATIONS

Ceremony of Presentation to the President.

LONG DELAY NOT EXPECTED

D'Arcos, who reached New York on the steamship Kaiser Wilhelm der Grosse yesterday, are expected to arrive in Washington at 6:10 o'clock this evening. They will go to the Arlington Hetel, where quarters have been engaged for them, and they will remain at the Arlington until a legation house has been selected. The minister, it is understood, will try to obtain the residence on Massachusetts avenue formerly occupied by the Spanish legation when Dupuy de Lome was minister.

The national colors of Spain were hoisted to the flagstaff of the Arlington Hotel to day in honor of the coming of the Spanish minister.

The new minister came by way of London, embarking on the steamer at Southampton, and was accompanied on the voyage by his wife and Senor Juan Riano, who will act as first secretary of the re-established Spanish legation. Senor Pastor, the second secretary of legation, arrived from

weather will be clearing and cooler in the Ohio valley and the lower lake region, and showers will be followed by clearing and cooler weather in the middle Atlantic and New England states.

Along the Atlantic coast the winds will be fresh to brisk from southwesterly, with squalls along the middle Atlantic and New England coasts.

Storm signals are displayed at all lake stations.

We in Spain are sorry for our soldiers who are prisoners there, but we believe that General Otis is doing all in his power to observe the said of the said tain their release and carry out the promise of the United States to send them home." Of the situation in Cuba he did not care to speak. "Our interest in Cuba is ended,"

things."
He said that he expected to go to Washtary of State announcing his arrival as the duly accredited minister of Spain. He could not say when his formal presentation to the President would take place, but thought that the ceremony would not be long de-layed. The affairs of the Spanish legation, he said, were still in the hands of the French ambassador and the Austrian minister, to whom they were committed by Senor Polo upon his departure.

The duke is below the medium height slim, and has the appearance of perfect He wears a straggling full beard and his hair is thin, a small bald spot being visible on the back of his head. His complexion is light, and he wears eyeglasses He was dressed yesterday in a blue sack suit and wore a low-crowned soft black

Much interest has been manifested in the coming of the minister's wife, whom he sought in marriage when, as Count Bru-nettl, he was attached to the Spanish lega-tion in this city. She was Miss Virginia Lowery, daughter of Judge Woodbury Low-ery of Massachusetts, who come to Westery of Massachusetts, who came to Washington a number of years ago to reside It is related that Miss Lowery was wooed by Captain Dewey, now admiral of the United States navy, and by Senor Brunetti. United States havy, and by Senor Brunetti. Her father was opposed to either match, but the young lady, who preferred the Spaniard, would have no other, and for twelve years remained single, until finally the father relented and they were married. The young attache had by that time suc ceeded to the title and estates of his uncle the Duke de Arcos, and was Spanish minister to Mexico. The wedding took place in August, 1895, at New London, Conn. Judge Lowery has since died, leaving his

daughter a large fortune.

A dispatch from the wife of the new Spanish minister to her relatives here states that she will be unable to accept the private hospitality which has been extended to the new minister and his wife, and that they will take quarters for the

The Points in Alaska Most Seriously at Issue.

The man herewith shown covers that nor-

The map herewith shown was prepared by Dr. Dawson, one of the most eminent Canadian geographers, who represented the dominion in the conference in this city with Mr. Dall of the geological survey in 1889. It was prepared in 1887, three years after the map which set forth the boundary as swinging far inland around the Lynn canal. The sentiments of the geographers had materially changed as to the and exit. Fyramid narpor is claimed by the Canadian government, it is understood, because there is a hope that it will afford a convenient point for a large military establishment, commanding the active centers at the head of the canal. The harbor itself is not shown on the man, It like at raphers had materially changed as to the situation in those three years. Whereas in 1884 they officially acknowledged the Inland line to be that agreed upon by England and Russia in 1825, in 1887 they denounced that line as being the ultra, unwarranted claim on the United States,

The state legislature will be called upon for action that will encourage this object. usual interest is now being manifested by the farmers of Prince George's county on the subject of better roads, as shown by their presence at this preliminary meeting. Many letters were read from prominent farmers from southern Maryland regretting their inability to be present and urging ac-

HAD LED A DOUBLE LIFE. Sudden Death of E. J. Barker Dis-

WATERLOO, Iowa, May 31.-Two women are claiming the body of Edwin J. Barker, who was killed in the wreck on the Eurlington, Cedar Rapids and Northern railroad Sunday morning. One of the claimante is Mrs E 1 Barker the widow of the dead man, and she is now on her way from Hot Springs, Ark., to take charge of the re-

of Neihart Mont, who arrived in Water loo last night. She declares that Barker was to have met her in Minneapolis Sunday and they were to have been married vester day. She identified the remains as those of her prospective bridegroom. A special from Hot Springs says that Mrs. Barker came there with her husband from Montana several months ago. They were married a year ago at Butte. Her husband was a man of considerable wealth, having extensive mining interests at Great Falls and other wide. other points in Morgana. Mrs Barker knows nothing as yet as to

the alleged double character of her hus-band. The shock to Miss Shadville when informed of Barker's duplicity was almo-as great as the news of his violent death.

The Star Office in London.

The Evening Star has now a permanently established and well fitted office in London, located in Trafalgar Buildings, Trafalgar Square, where its representative will be constantly in attendance, and where files of the paper, and those of other leading American journals, will be kept for the benefit of visitors. Patrons and friends of The Star, traveling in England and on the continent, are invited to have their mail addressed to the care of its London office, as above, where it will be safely kept until called for, or forwarded, as may be instructed, from time to time.

Presented With a Ring.

Miss Cora Shreve at the conclusion of her May carnival at the Academy of Music Monday night was presented by her pupils with a handsome ring set with rubles and diamonds, Prof. Vermilya making the presentation speech. The attendance, includ-ed many of the Chinese legation and others prominent in social circles.

A Teacher's Duty.

I noticed two of my little pupils, brother and sister, when reaching up for a book or any article that I desired to hand to them, trembled more or less from the fingers to the shoulder. I finally concluded this was not shyness, but was

discovered that they were in the habit of drinking coffee every morning for breakfast. I warned the children to leave off the coffee, for I knew it was the cause of their trouble, and would ruin them if continued in. I always urge children to Postum Food Coffee, for I know that to be healthful, strengthening and a perfectly natural liquid food. A short time thereafter the little folks spoken of were entirely well of their slight palsy. It is a distressing state of affairs where parents

taste of Postum was not liked, but in all such cases, the dislike arises from the failure to properly boll it. It is a very tasteless liquid when underboiled, and a very delicious, strong, rich, satisfying coffee when boiled long enough to bring out the flavor and food value. Dr. Helen Coe, 267 W.
